NOV, 2021 – DEC, 2022

Developer Mobile Solutions L1, PUBLICIS SAPIENT

HTML/CSS JavaScript React JS

Projects: Marcel.ai, Bethlehem Shared Services, Mobile COE

JAN, 2021 – JUNE, 2021

Web Developer Intern, EME TECHNOLOGIES

HTML/CSS JavaScript Bootstrap MySQL

Project: Chandigarh Online Help Desk

PROJECTS

Marcel.ai

- Developed and implemented the employee profile page for Publicis Groupe's social portal, utilizing the LinkedIn Profile API to fetch and display employee information.
- Documented code and provided clear and concise explanations to facilitate knowledge transfer to other team members.

Mobile COE

- PS's in-house framework for fast-pacing app development process.
- Learned clean architecture and wrote code for reusable components.
- Documented code for REST API (JSON) and GraphQL.

The Children's Place

REACT JS, FIREBASE

MULTI BLOG, CONTENT PUBLISHING PLATFORM

- React web application with Firebase phone authentication and Firestore database integration.
- Designed and implemented a responsive user interface using CSS Grid and Flexbox.
- Employed Firebase Firestore to store blog post data, providing easy scalability and efficient data retrieval.

REACT.JS, NODE.JS

Q.KART, ECOMMERCE STORE

- Implemented the core logic for authentication, shopping cart and checkout with Test Driven Development.
- Improved UI by adding responsive design elements for uniform experience across different devices.
- Utilized REST APIs to dynamically load and render data served by the backend server.
